Industrial Medicine

Index - 1941

Volume 10: Numbers 1 to 12

Pages 1 to 564

ABSENTEEISM
—study of, in hat manufacturing plant, (August) 320
ANALYSIS
—of toe injuries, in relation to accident prevention, (June)...249
ANILINE oil poisoning, report of unusual acute case, (December) 556
AORTA
—dissecting aneurysm of the, role of exertion in its production, (December) 525
ARBITRATION of medical bills, (January) 13
ARTERIOSCLEROTIC vascular disease, (November) 453
ARTHRITIC PATIENTS
—laboratory and clinical observations of, (August).....341
ARTHRITIS
—chronic, and re-employment, (March) 95
BACK
—problem of the low, pain, (January) 5
—neurosurgical lesions producing pain in, (February)..... 55
BACTERIAL population, variation, in certain ventilation systems, (October) 60
BILLS
—arbitration of medical, (January) 13
BONE SPLINT
—corticomedullary, (August) 324
BURNS
—electric shock, electric, and their treatment, (March)..... 87
CALSAMATE
—new analgesic, (January)..... 44
CANCER
—trauma and cutaneous, (December) 519
CARDIOVASCULAR
—disabilities, of railway employees; problems of consultant; review of eight years' experience, (October) 415
—emergencies, recognition and treatment, (May) 192
CHROMIUM poisoning, hazard of increasing importance, (June)....246
CIRCULATORY function, evaluation of, in extremities, (August)....321
CLEANSER
—new industrial skin, (November).493
COCCYDYNIA
—treatment of, (January)..... 14
COOLING workers, in hot industry, (November) 460
COMMON COLD
—the, (March) 99
COMMONWEALTH EDISON'S medical offices, (October).....423
COMPANY
—doctor, the, his opportunity, (December) 546
COMPENSATION
—injuries, evaluation, (June) 244
—one hundred million dollar premium, (May) 182
CONDITIONS, working, in the painting trades in Chicago, (October).432
CONSERVATION in national defense, (October) 47
CONTROL
—of tuberculosis, opportunities in the industrial health program, (October) 53
—of tuberculosis, employability of tuberculous individual industry, (June) 221
CONTROLLED radium hazards, (October) 57
CORONARY disease and hypertension, cause of rejection in industry? (April) 162
CORROSION
—causes tending to stimulate, (February) 80
—and menstruation, certain observations, findings of causes tending to stimulate electrolysis, corrosion in electrical products, (February) 80
CORTICOMEDULLARY bone splint, review of literature and report of two recent cases, (August)....324
CURRENT comment, silicosis, (April) 159
DEFENSE
—conservation in national, (October) 47
—industrial health and national, (May) 217
—nutrition and national, (December) 562
DENTRAL
—program in industry, (March).104
DEPARTMENT
—medical, importance in industry, (February) 58
DEPROTEINATED pancreatic extract, (December) 530
DERMATITIS
—industrial, prevention, (April)..147
DERMATOSES
—natural vitamin A. & D. ointment, treatment of, (November).481
—new wet dressing solution for common, (February) 81
—occupational, diagnosis, prevention and treatment, (September) 379
DISABILITIES
—cardivascular, railway employees, (October) 415
DISEASE
—arterioscleratic, vascular, introduction, (November) 453
—gall-bladder, consideration of mortality, (May) 184

—pre-existing, aggravation as a result of compensable injury, (September) 374
—trauma and, some elements of their relationship, (June).....233
—trends in occupational, in industrial hygiene, (November).....466
DISEASES
—industrial accidents and, (December) 528
—occupational, (November) 491
—skin, common to railroad employees, (October) 421
—venereal, plan for control in industry, (July) 284
DISINFECTION, infection, and air conditioning, (July) 281
DISSECTING aneurysm of the aorta, evaluation of the role of exertion in its production, (December)..525
DOCTOR
—the company, his opportunity, (December) 546
EFFECT of trauma, with relation to tuberculosis, pneumonia, and pernicious anemia, (August)...334
ELECTROLYTIC sodium hypochlorite, its use in treatment of infected wounds, (June).....252
ELECTROLYSIS
—causes tending to stimulate, (February) 80
EMERGENCIES
—cardiovascular, recognition and treatment, (May) 192
EMPLOYEE
—railroad, the, with heart disease, (August) 333
EMPYEMA
—observations in treatment of, (February) 69
ENDEMIAL COLIC
—inquiry concerning cause of Devonshire, (June) 260
ESOPHAGEAL hiatus hernia, not uncommon, often under-diagnosed, (November) 457
EVALUATION
—of manipulative therapy, in back conditions, (May) 189
EXAMINATIONS
—pre-employment, (March).....123
FAITH healing, as medical care under workmen's compensation act (December) 547
FEES and disability periods, standard bodyparts adjustment guide, (November) 492
FUNCTION
—circulatory, evaluation of, in extremities, (August) 321
GALL-bladder disease, consideration of mortality, (May) 184
GASTRIC
—physiology, recent developments, (March) 91
GOITRE
—types of, characteristics, results of treatment, (April) 137
HAZARDS
—controlled radium, (October)... 57
HEAD
—injuries, management, (February) 60
—lesions, evaluation, (April)....140
HEALING
—faith, as medical care under the workmen's compensations act, (December) 547
HEALTH
—factors affecting industrial, (September) 403
—industrial health practices, report of a survey, (September).388
—industrial safety and, from executive viewpoint, (December)..542
HEART
—medicolegal aspects, (October)..424
HEMORRHAGE
—traumatic intracranial, (October) 411
HERNIA
—esophageal hiatus, not uncommon, often under-diagnosed, (November) 457
—inguinal, newer methods of repair, (October) 418
—the injection treatment of, its scope and limitations, (January) 44
—summary on injection treatment, (April) 145
HOLLOW FOOT
—in industry, (March).....126
HYGIENE
—industrial, problems in the national defense program, (March) 118
—industrial, program in Los Angeles, (June) 236
—industrial, public health program, (June) 270
HYPERTENSION
—coronary disease and, cause for rejection in industry? (April)..162
—significance and treatment, (March) 93
HYPOCHLORITE
—electrolytic sodium, its use in treatment of infected wounds, (June) 252
ILLNESS
—non-occupational injuries and, survey in major carpet mill for '40, (January) 1
INDELIBLE lead puncture wounds, (January) 15
INDUSTRIAL
—abstracts of papers given at the third annual congress on industrial health of the A.M.A. and the Chicago Medical Society, Jan. 13-15, 1941, Chicago, (March) 106
—accidents and diseases, Review of 27th Annual Convention of International Assn. of Industrial Accident Boards and Commissions, (December) 528
—chemistry and morbidity, (August) 361
—dermatitis, prevention, (April).147
—health, and national defense, (May) 217
—hygiene, in a public health program, (June) 270
—hygienne, program in Los Angeles, (June) 236
—hygiene, progress, during the past year, (October) 48
—medicine, in national defense, (July) 282
INDUSTRIAL
—nurse, the, responsibility in efficient administration of compensation law, (April) 150
—physician, the, status and function, (February) 72
—poisonings, practical aspects, (April) 152
—practice, the special nature of, (March) 101
—safety and health, from executive viewpoint, (December) 542
INDUSTRY
—physician in, and national defense, (July) 275
—nurse in, the, relationship to the physician, (April) 146
—tuberculosis in, saranac symposium, (October) 433
INFECTION
—disinfection, and air conditioning, (July) 281
INFECTIONS
—present status in the treatment of, sulfathiazole, (April) 131
—and lesions, in minor surgery; advancement in iodine therapy, (December) 553
INGUINAL hernia, newer methods of repair, (October) 418
INJURIES
—an analysis of toe, in relation to accident prevention, (June) ...249
—compensation, evaluation, (June) 244
—head, management, (February). 60
—maxillo-facial, important considerations, (February) 52
—minor industrial, management, (February) 75
—non-occupational illnesses and, (January) 1
—to the knee joint, series of 118 cases, (July) 277
—traumatic, mental disturbances, (May) 187
INJECTION
—summary on injection treatment of, hernia, (April) 145
—treatment of hernia, the, its scope and limitations, (January) 44
JOINT
—injuries to the knee, (July)....277
LESIONS
—head, evaluation, (April).....140
—infections and, in minor surgery; advancement in iodine therapy, (December) 553
LITERATURE
—trends in the, (July) 307
LOCAL railroad surgeon, the, (January) 10
MANPOWER
—lost, in terms of weapons, (September) 402
MAXILLO-facial injuries, important considerations, (February) 52
MEDICAL
—bulletin, Standard Oil Co. medical dept., (November) 463
—department, importance to industry, (February) 58
—preparedness, (December) 560
—rest room, at the home office of Metropolitan Life, report for 1939, (January) 34
MEDICINE
—industrial, in national defense, (July) 282
MEDICOLEGAL
—aspects, of trumatic injuries and spontaneous rupture of the heart and aorta, (October) 424
METALLIC poisons, (October).....447
MINERALS
—vitamins and, observations on nutrition problem, (November).476
MINOR industrial injuries, management, (February) 75
MODERN burn treatment, with special reference to new dressing "foille," (October) 427
MORBIDITY
—industrial chemistry and, (August) 361
NATIONAL DEFENSE
—and occupational disease, (September) 398
NATURAL vitamin A. & D. ointment, experience in treatment of burns, varicose ulcers, and different dermatoses, (November) 481
NECK
—tumors of the head, face and, (February) 59
NEUROSURGICAL
—lesions, diagnosis, treatment, those producing pain in back, (February) 55
NEW
—analgesic—calsamate, (January) 44
—industrial skin cleanser, (November) 493
—wet dressing solution, clinical studies, 51 patients, common dermatoses, (February) 81
NON-OCCUPATIONAL
—illnesses, and injuries, (January) 1
—injuries and illnesses, survey in major carpet mill for 1940, (June) 242
NURSE
—in industry, the, relationship to the physician, (April).....146
—the industrial, responsibility in efficient administration of compensation law, (April).....150
NURSING services, symposium on industrial public health, (January) 29
NUTRITION and national defense, (December) 562
OCCUPATIONAL
—diseases, (November) 491
OFFICES
—Commonwealth Edison's medical, (October) 423
ONE HUNDRED million dollar premium, income workmen's compensation, '41, (May).....182
OPPORTUNITIES for physicians, in industry, (July) 311
PATHOLOGICAL process, the, following fracture, and treatment methods, (May) 117

PERNICIOUS anemia, effect of trauma with relation to, (August) 334
PHYSICAL
—examinations, some practical results, (June) 230
—fitness service, results obtained with 350 policyholders, (June).254
—therapy, indications, limitations in railroad surgery, (February) 54
PHYSICIAN
—in industry, and national defense, (July) 275
—the industrial, status and function, (February) 72
PHYSICIANS
—opportunities for, in industry, (July 311
—registration of, (May).....200
PHYSIOLOGY
—gastric, recent developments, (March) 91
PLACEMENT of the worker, to end of providing gainful occupations for all individuals, (December).535
PLASMA protein, its physiological action and therapeutic application, (August) 352
PLASTIC surgery and repair, particular reference to repair of curaneous defects of hand, (February) 47
PNEUMONIA
—effect of trauma with relation to, (August) 334
POISONING
—aniline oil, report of unusual acute case, (December).....556
—chromium, hazard of increasing importance, (June) 246
—ethylene dichloride, (September) 373
POISONINGS
—industrial, practical aspects, (April) 152
POISONS
—metallic, (October) 447
POPULATION
—bacterial, variation, in certain ventilation systems, (October). 60
PREGNANCY
—work output and, (May).....213
PREPAREDNESS
—medical, (December) 560
PRIMARY thrombosis, of the axillary vein, (June).....247
PROBLEM of the low back, the, (January) 5
PROCESS
—pathological, the, following fracture, treatment methods, (May).171
PROGRESS
—industrial hygiene, during the past year, (October)..... 48
RAILROAD employee — the, with heart disease, (August).....333
REGISTRATION of physicians, under the workmen's compensation law requirements for advancement in ratings and qualifications, (May) 200
REHABILITATION
—at Baton Rouge refinery, (March) 83
RESPIRATORY
—infections, their control in industry, (September) 376
REST ROOMS
—medical, at the home office of Metropolitan Life, (January).. 34
RUPTURE
—medicolegal aspects, (October).424
SERVICE
—physical fitness, results obtained with 350 policyholders, (June).254
SHOCK
—electric burns, electric, and their treatment, (March)..... 87
SILICOSIS
—and silicosis with tuberculosis, (September) 366
—current comment on, (April)...159
—x-ray atlas of, (November)....491
SKIN
—diseases, common to railroad employees, (October) 421
STUDY of absenteeism, in a hat manufacturing plant, (August).320
SULFATHIAZOLE
—present status in the treatment of infections, (April).....131
SURGEON
—the local railroad, (January).. 10
SYMPOSIUM on industrial public health nursing services, program, Milwaukee, Feb. 20, 21, 22, '41, (January)..... 29
SYPHILIS
—control, (September) 384
—control of, and the intergration with a community program, (December) 548
THERAPY
—evaluation of manipulative, back conditions, (May) 189
—indications, limitations in railroad surgery of, (February)... 54
THROMBOPHLEBITIS
—of the veins of the lower extremities following effort and strain, (August) 328
THROMBOSIS
—primary, of the axillary vein, (June) 247
TRAUMA
—and disease, some elements of their relationship, (June).....233
—and cutaneous cancer, (December) 519
—and glomus tumors, relationship, report of a case, (May).....208
—of the urinary, 25 cases, (August) 315
TRAUMATIC
—injuries, and mental disturbances, (May) 187
—intracranial hemorrhage, with particular reference to surgical management, (October) 411
—wounds, primary care, (June).239
TREATMENT
—of coccydynia, (January)..... 14
—modern burn, with special reference to new dressing "Foille," (October) 427
—observations on, of empyema, (February) 69
TRENDS
—in literature, (July) 307
—in occupational disease, in industrial hygiene, (November)..466
TUBERCULOSIS
—allied conditions of, (October).441
—control of, employability of tuberculosis individual industry, (June) 221
—control of, opportunities in the industrial health program, (October) 53
—in industry, Saranac Symposium, (June) 433
—with silicosis, (September)....366
TUMORS
—of the head, face, and neck, (February) 59
—trauma and glomus, relationship, report of a case, (May)..208
TYPES of goitre, characteristics, results of treatment, (April)...137
ULCERS
—natural vitamin A. and D. ointment of, (November).....481
VENEREAL diseases, plan for their control in industry, (July).....284
VITAMINS and minerals, observations on nutrition problem, (November) 476
WORK output and pregnancy, (May) 213
WORKER
—placement of the, to end of providing gainful occupations for all individuals, (December)....535
WORKERS
—cooling, in hot industry, (November) 460
WORKING conditions, in the painting trades in Chicago, (October).432
WOUNDS
—clean, (September) 400
—"indelible lead" puncture, (January) 15
—traumatic, primary care, (June).239
X-ray atlas of silicosis, (November).491
